

## What Is Planned Giving?

The CPNP Foundation works to create a world in which individuals with psychiatric and neurologic disorders receive optimal treatment, live free of stigma, and achieve their full potential. Your planned gift allows you the opportunity to provide a gift from your estate to an organization whose values align with those you lived during your lifetime.

## Benefits of Planned Giving

- Assets specified in your will/trust remain in your control during your lifetime.
- You can modify your bequest if your circumstances change.
- There is no upper limit on the estate tax deduction that can be taken for charitable bequests.
- Know that your gift will benefit CPNP Foundation in the future just as you intend it to now.

## Recognizing Your Generosity

CPNP Foundation is pleased to recognize and thank those who commit any amount in their estate plan by offering membership in the Foundation's **Legacy Partners Society**. Society members will be recognized on the Foundation website, in Foundation publications, and at the CPNP Annual Meeting.

Members of the CPNP Foundation Board and staff would welcome the opportunity to visit with you about your plans and invite you to complete the form provided in this brochure.

## Planned Giving to Achieve Your Philanthropic Goals

## Your CPNP Foundation Legacy

Continue to make an impact beyond your lifetime

# Why Giving Matters

## Access to Treatment

The Foundation continues to work on collaborative initiatives that improve access to treatment. An example is the creation of the Mental Health Pharmacy Directory which helps patients and caregivers locate a Mental Health Pharmacy in their area.

## Research

Recognizing that the promise of the future rests on research in the present, the Foundation engages in research and funds research by students and residents to investigate topics related to stigma or comprehensive medication management as a best practice.

## Education

Focused on expanding resources for patients, caregivers, and pharmacists, the Foundation is committed to developing resources that improve access to evidence-based psychiatric treatment.

## Student Development

Through its annual grant program, student pharmacists have the opportunity to evaluate a career in psychiatric pharmacy by attending the CPNP Annual Meeting. This experience allows dozens of students to develop professional networks and acquire knowledge through programming and mentoring opportunities.

“

I support the CPNP Foundation because of its effectiveness in advancing best treatment options for individuals living with psychiatric or neurologic disorders and improving access to treatment.

It was very simple to include the CPNP Foundation when I did our estate plan. I am happy that through my bequest, I will continue to improve the lives of others even after I'm no longer on this earth. How could I not act now to better the lives of others for years to come?

—Joni Fowler
